FWC-341TS Whynter Freestanding Wine Fridge

A display shelf shows off your favorite bottles

You can store and cool 34 bottles of wine in the Whynter Freestanding Wine Fridge. The digital temperature control panel adjusts from 39 degrees F to 65 degrees F, and the tempered, double-pane glass door provides UV protection to keep the sun from deteriorating the quality of the wine. There are 4 shelves, in addition to a display shelf for showing off your favorite wines. The self-standing wine fridge also has built-in door locks and a set of keys.
